Building research synergies in global governance

This seminar is **open to all Una Europa researchers**. It aims at identifying further research synergies within a **broad scope of topics** related to global governance. It first opens the floor to **researchers from all the Una Europa universities**, who form part of the recently created Una Europa Global Governance Research Group (<https://global-governance1.webnode.es/>).

Several members of this group will present their current research. However, **interactions with other researchers are envisaged** and the seminar is also a **call for other Una Europa researchers to share their ideas**. We aim to promote **collaborations among Una Europa Researchers**.

Thursday 2 September 2021
