

# The UN Secretary-General's Our Common Agenda Report: Multidisciplinary Perspectives

This seminar is the third one organized by the **Una Europa Global Governance Research Group**, within the “**Dialogues between policymakers and Academia**” seed funded project. It gathers members from Una Europa Universities to further identify and strengthen our research interests. In this occasion, the topics to be presented will be related to the **United Nations** report “**Our Common Agenda**”, with the objective of fostering our global governance approach to research. Presenters have 20 minutes to develop their topic. There are also 10 minutes for Q&As after each presentation. Last, but not least the winners of the “**First Una Europa competition on global governance research**” will be announced during this event.

All about the Global Governance Research Group [here](#)

## Wednesday 8 Dec 2021
